PROFESSIONAL EXPERIENCE

Senior Software Engineer | Google | San Francisco, CA | 2020-2024

- Architected distributed caching layer serving 8M+ daily requests, reducing p99 latency by 52%.
- Led migration of 40+ microservices from GCE to GKE, cutting infra costs by \$1.2M annually.
- Mentored 6 junior engineers through weekly 1:1s and structured code-review cycles.

Software Engineer II | Amazon | Seattle, WA | 2017-2020

- Built real-time inventory sync pipeline processing 500K events/sec with < 200ms E2E latency.
- Reduced on-call pages by 70% by instrumenting distributed traces via OpenTelemetry.

EDUCATION

B.S. Computer Science, Stanford University, 2013-2017

SKILLS

Python, Go, Java, AWS, GCP, Kubernetes, Kafka, PostgreSQL, Redis, Terraform
