PROFESSIONAL EXPERIENCE

Data Scientist | Shopify | Seattle, WA | 2021-2024

- Built churn prediction model (XGBoost) achieving 83% recall, retaining ~\$4M ARR annually.
- Designed A/B testing framework used across 12 product teams, reducing experiment cycle time by 30%.
- Maintained ETL pipelines ingesting 2TB/day of clickstream data using Spark and Airflow.

Data Analyst | RetailCo | Portland, OR | 2019-2021

- Created SQL dashboards tracking KPIs for 5 business units; reduced reporting lag from 2 days to 4h.
- Applied clustering (k-means) to segment 1.2M customers, informing targeted email campaigns.
